FLUSH DOOR

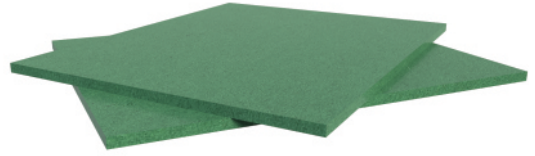

FLUSH DOORS are mostly made up of solid core [this can be either timber or other material] covered corners with amazingly great coverings - finishing sheets on either side of the door. Outer covering of choice materials may vary by design.

Ready to use 100% water proof flush doors can be mounted early with minimum efforts to beautify your dream home. Doors are manufactured under strict quality control systems that fully comply with ISI specifications.

INSTALLATION

- ❖ Abhimanya doors must not be installed until all wet trades on-site are completed. Kindly refer to installation guide for the exact process of storage, installation and damage protection.
- ❖ As a finished product, the installation of Abhimanya doors must begin only after one coat of paint has been applied on walls. Even after the installation, Abhimanya doors must be protected until the site is occupied and becomes functional

VENEER DOOR

At Abhimanya we bring two different range of veneer doors that match your home or office decor

- ❖ We use different veneers that can be perfect to go with any type of external or internal deviation.
- ❖ We polish the veneer with automated spraying machine for high quality finish, we apply protective coating on top for scratch resistance and higher durability.

LAMINATE DOOR

We at Abhimanya offer high pressure laminate doors that are stunningly beautiful, stronger and durable.

These kind of laminate doors are very popular, best laminates are picked and pressed on to calibrated flush shutters and the side of door will be perfectly edge banded with matching PVC tape.

These kind of doors are more suitable for bedrooms and wet areas like bathrooms & balconies.
